Description:

Dear AllI phoned around the Martello Jazz Band members yesterday and they are all well, though thoroughly frustrated at the inability to organise gigs. The general opinion is that it may well be the end of September or even later before we can consider playing again, and even then it may only be outdoor events. The problem of organising the Jazz Club is that it is an indoor event, social distancing is still a priority for us all, and the band (and the audience?) would all be considered to be in the "vulnerable" category!We will just have to keep a close eye on events and see how the health recommendations develop. It is likely that the return to anything close to "normal" will have to await the arrival of the development of a vaccine - let's hope this happens sooner rather than later. In a desperate attempt to keep your spirits up, I attach another two sound files recorded in 2001.Look after yourselves and stay safe.Best wishesAlan

Created by: Jazzer Fred

Description:

The Pendle Jazzmen have continued to build up a regular audience for their monthly Thursday evening sessions at Ighten Mount Bowling Club, Romford St., Burnley: so much so that, by popular request, it has been decided to increase the event to twice a month. These will be on the first Thursday (as now) with an additional third Thursday. The downstairs function room - newly decorated - presents excellent facilities with a wide range of drinks available as well as pie and peas. The band's trademark of happy, foot-tapping dixieland jazz with a mixture of both informative comments and amusing jokes and stories will continue. From time to time the band is joined by instrumentalists who are invited to "sit in" for a couple of numbers and this adds variety to the evening. An admission charge of £3.00 and a popular raffle helps to cover travelling expenses for band members, some of whom come from as far away as South Manchester and Fleetwood. Two founder members of the band (Stuart Whiteley and Colin Mason) are still performing after over thirty-three years: they are joined most weeks by John Brunton, Mike Pearson, Dave Joyce and Mike Reddin. The doors open at 7p.m. and the music starts promptly at 8p.m. finishing at 10.30p.m. with a short break in between. New comers are always welcome as the band members constantly seek to keep jazz music alive and well in the town. Best wishes! Colin Mason

Description:

Ladies & Gents, due to the PM's recent statement stating everyone in the UK should now avoid "non-essential" travel and contact with others which includes social gatherings in pubs and clubs in order to combat the spread of Covid-19, we have decided to suspend our Wednesday night residency until further notice. As you will appreciate, the health and well-being of the band and our dedicated followers comes first. The Freddie Smith Big Band is the premier Big Band on the Wirral. We are located in Higher Bebington, Wirral, in the North West of England. Set up by in the 1970s by professional sax player Freddie Smith, the band has been performing all over the Wirral and North West since its inception. Freddie was a well-known, well-loved charismatic character within the North West jazz scene and led the band until his passing in 2013. Since Freddie's passing, a group of dedicated musicians have kept the band going in his name. We have a good mixture of pro, semi-pro and top amateur musicians who dedicate their time to playing in the band every week. The band has gone from strength to strength over the last few years and is well regarded by musicians and audiences. Come and hear us play every Wednesday 8.30 - 11pm at Higher Bebington Royal British Legion, Teehay Lane, Higher Bebington, Wirral. CH63 8QS. Entry is free, but we ask for donations in order to pay our dep's expenses, and keep our music pad healthy and up to date. We play a varied selection of old and new charts and have been known to play requests. Please come and support the premier Big Band on the Wirral and keep Big Band music alive.

Dear AllI phoned around the Martello Jazz Band members yesterday and they are all well, though thoroughly frustrated at the inability to organise gigs. The general opinion is that it may well be the end of September or even later before we can consider playing again, and even then it may only be outdoor events. The problem of organising the Jazz Club is that it is an indoor event, social distancing is still a priority for us all, and the band (and the audience?) would all be considered to be in the "vulnerable" category!We will just have to keep a close eye on events and see how the health recommendations develop. It is likely that the return to anything close to "normal" will have to await the arrival of the development of a vaccine - let's hope this happens sooner rather than later. In a desperate attempt to keep your spirits up, I attach another two sound files recorded in 2001.Look after yourselves and stay safe.Best wishesAlan
